Capstone/Thesis Topic Proposal

Group	Group 2
Section · Term	WD-401 (Capstone 1) → WD-401 (Capstone 2) · AY 2026–2027, 1st Semester
Program	Bachelor of Science in Information Technology with Area of Specialization in Web Development
Proponents	November Student (2022-0104) Oscar Student (2022-0105) Hotel Student (2022-3046) India Student (2022-3047)
Instructor 1	Prof. Bravo
Adviser	Prof. Charlie
Date submitted	September 14, 2026

The group proposes the following five topics, in order of preference, for evaluation by the Instructor 1 and the Adviser.

#	Proposed topic	Description and rationale
1	**Smart Queue Management System for University Clinics**	Patients join the clinic queue from a QR code or the portal, see their position and estimated wait, and are emailed when two turns away.
2	**Campus Lost-and-Found Tracker**	A portal where the security office logs found items and students claim them with photo matching and claim codes.
3	**Room Reservation System for Student Organizations**	Online booking of function rooms with approval routing to the Office of Student Affairs.
4	**Library Seat Availability Monitor**	A live map of free study seats built from check-in QR codes at each table.
5	**Alumni Tracer Survey Portal**	An online tracer study that alumni answer from an emailed link, with program-level dashboards.

For the Instructor 1 and the Adviser
